## Sergio Rodrigues Shop-in-Shop Opens in Los Angeles Espasso

The West Coast's first Sergio Rodrigues shop-in-shop opened on March 20 in Espasso, the premier design gallery for modern and contemporary Brazilian furniture. The Los Angeles shop is only one of two stores—along with Espasso's New York outpost—to sell authentic re-editions of the iconic Brazilian designer's furniture.

The shop features many of Rodrigues' most well known pieces, such as the Mole armchair, the Diz chair and the Kilin chair. Also included will be sofas, lighting, stools and sideboards.

The grand opening of the shop coincided with WestWeek, Pacific Design Center's weeklong design trade event that features showroom programs, product introductions and lectures.
