

Eclipse Lighting

by Mauricio Klabin, 1982

Reference: #00001009

The "Eclipse" lamp is manufactured from a single plastic band and the shade can be manipulated to change the orientation of the light. The metal frame is equipped with small plastic elements, allowing the lamp to rest in various positions. Folds flat for storage. Made of steel, polyethylene and polypropylene. The lamp is part of the permanent collection of the Museum of Modern Art in New York.

Dimensions
