

Cancan Dining Table

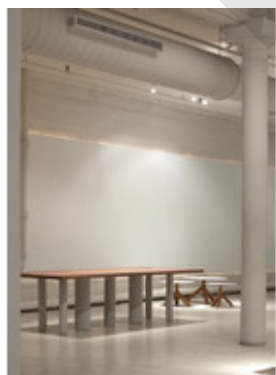

by Claudia Moreira Salles, 2012

Reference: #00001575

Edition of 8.

The ample design of the Cancan dining table juxtaposes industrial and minimalist forms, materials and techniques to create a functional piece of impressive proportions.

Deceivingly light, the seven cylindrical legs of the Cancan are made of ultra•high performance concrete (UHPC), giving structure, stability and comfort to the piece, and alluding to the multiple legs on a chorus girl line•up.

Dimensions

W 110" x D 43" x H 29"
