

Stand By Coat Hanger

by Claudia Moreira Salles, 2016

Reference: #00002042

The versatile "Stand By" coat hanger by Claudia Moreira Salles is an alternative to most recurrent coat rack forms. The piece consists of a solid wood board on which wooden hooks are asymmetrically attached, and opened easily by tapping their lower ends and a concrete base, which provides stability. The hand-spun wooden bowl fixed to the top edge of the concrete base, for holding keys and knickknacks, is an added touch.

- Dark wood: ipê
- Light wood: catuaba
- Concrete: Light or Dark
