

Saíra Bowl

by Carlos Motta, 2019

The Saíra bowls are handmade by Riberinhos whose home is the Amazon, in resistant Muiracatiara wood, certified by the FSC. The three bowl sizes each reflect a unique, natural wood design, and can be placed together into one. These pieces are part of the Attom collection by Carlos Motta and his son, Diego Motta: utilitarian designs for the everyday created with sustainable materials and with responsible production choices.

- Made in Muiracatiara wood, certified by the FSC
- Part of the Attom collection
- Available in three sizes
