# Malhetado Stool

by Attom, 2019

The elemental ‘Malhetado’ stool is made from repurposed, demolition Peroba Rosa wood and recycled cotton canvas upholstery. The piece is part of the Attom collection by Carlos Motta and his son, Diego Motta: utilitarian designs for the everyday created with sustainable materials and with responsible production choices.

- Made in repurposed, demolition Peroba Rosa wood
- Upholstered with recycled cotton canvas upholstery
- Part of the Attom collection

# Attom

ATTOM emerged naturally and organically from a desire to share the results of decades of experience creating products, transforming used garments, and exploring comfort and compelling aesthetics.

The company was established in a warehouse beside a woodworking shop that has been operating for more than 45 years. This simple space serves as a studio, workshop, and store, a place where ATTOM develops products and creates comfortable, thoughtfully made pieces that combine responsibility, quality, and beauty. The brand values both personal and professional connections with its clients, making each relationship meaningful and unique.

ATTOM develops clothing, furniture, and functional objects guided by the principles of sustainability and social and environmental responsibility. The company remains committed to evolving within these values, creating not only products but also experiences that reflect its principles and purpose.
