

ESPASSO

Valente Bench

by Fernando Mendes, 2023

Custom-made bench crafted from peroba do campo, released in 2023.

The joints stand out in this design. the attachment of the legs, for example, requires no gluing or screws. only the “dovetail” joint and a trapezoidal wedge keep the legs attached to the seat.

Wooden butterflies reinforce the connections of the pieces that make up the seat, which can measure up to 3 meters in length.
