

JZ Tea Trolley

by Jorge Zalszupin, 1959

A Brazilian Modernist classic, the JZ tea trolley's pair of slender yet oversized brass wheels play off the triangular sides of the bottom shelf, whose sides resemble a folded origami - a theme among Zalszupin's designs. The tray on top is removable.

- Made from honey imbuia
- Accents made from brass and powder-coated steel
- Reissued by Etel
