ME Metal and Wood Coffee Table

by Martin Eisler

This coffee table is iconic not only for the age of its creation, but for the shapes, movement and materials it brings into play. Eisler explored the combination of metal in wood in new forms and interactions. Eisler was among the partners of Forma S.A. Móveis e Objetos de Arte, commonly known as 'Forma.' Their studio is responsible for some of the most internationally recognized Brazilian furniture items - like the 'Costela' and 'Reversível' Armchairs.

- Laminated wood top and metal base
- The wood-slatted dip serves as a storage compartment, perfect for books or magazines.
