Tinga Lighting

by Attom

The Tinga Lamp is handcrafted using a manual woodturning process. Its base and structure are made from reclaimed peroba rosa wood, while the shade is crafted from repurposed paper coffee filters. It produces a warm, pleasant amber glow.

All ATTOM products are made using organic, recycled, or reclaimed materials, along with artisanal production methods and finishes. Due to the unique nature of these processes, variations may occur between production batches and even between individual pieces, making each one truly unique.

ESPASSO

Attom

ATTOM emerged naturally and organically from a desire to share the results of decades of experience creating products, transforming used garments, and exploring comfort and compelling aesthetics.

The company was established in a warehouse beside a woodworking shop that has been operating for more than 45 years. This simple space serves as a studio, workshop, and store, a place where ATTOM develops products and creates comfortable, thoughtfully made pieces that combine responsibility, quality, and beauty. The brand values both personal and professional connections with its clients, making each relationship meaningful and unique.

ATTOM develops clothing, furniture, and functional objects guided by the principles of sustainability and social and environmental responsibility. The company remains committed to evolving within these values, creating not only products but also experiences that reflect its principles and purpose.
